Hi there!

Salinity data are attached. There are definitely some instrumental issues among these data, and we should clip out data collected at low tide / exposure. I get predicted tidal data from:

<http://tbone.biol.sc.edu/tide/>

I misremembered our deployments, and we didn't have chlorophyll sensors in 2016. Site coordinates:

Site	Habitat	Depth	Current Lat	Current Long
CI	E		47.3584391	-122.7964495
CI	B		47.3579367	-122.7957627
FB	B		48.481691	-122.58353
FB	E		48.481342	-122.583529
PG	B		47.842676	-122.583832
PG	E		47.847983	-122.582919
SK	E		47.3543321	-123.1566232
SK	B		47.35523	-123.1572
WB	B		46.4944789	-124.0261356
WB	E		46.49508	-124.02652

I will be out of town until next Wednesday, but I can send more then!
